NOTE:

1. I have mentioned each and every possible resource I used for Anthropology. Thus list is exhaustive
2. Wherever I have mentioned 'Learn 2 Achieve (L2A) test materials' – this means I have used this material for VALUE ADDITION PURPOSE (not as a base material)
3. Those aspirants who have paucity of time (working aspirants, those who changed optional, first timers) can use my Notes for PAPER II to save a time consuming exercise of content gathering and value addition (if you find my notes good enough!)
4. Use toppers answer copies very wisely!
5. Those who have **suspicion** on whether I really used this exhaustive booklist need to understand my timeline for preparation- I am mentioning in brief:
 - a. I dedicated approx. 6 months (3 and ½ before prelims (Upto December 2018) and 2 and ½ after Prelims).
 - b. I **NEVER** read a resource line by line. I used to read only portion mentioned in syllabus

- c. My basic notes were ready as of December 2018 and I did value addition after my Prelims.
 - d. My study hours were long enough to give me time required for such vast study (my peers in Jnana Prabodhini library and my mentors can second that)
